## Researching World War I: A Handbook

World War I was the greatest cataclysm Europe had ever known, directly involving 61 million troops from 16 nations. Yet the history of the war and the reasons it started and spread so rapidly were vastly more complex than the players realized. Written by highly respected authorities, this book discusses the literature on all aspects of the war, making it an excellent starting point for anyone seeking guidance to the immense, and often daunting, body of World War I literature.

The struggle mobilized manpower from home, troops from the colonies abroad, and—in most countries—women as well as men. Governments increasingly intervened in everyday life. New weapons and organizational structures were developed. Yet the history of the war and the reasons it started and spread so rapidly were vastly more complex than the players realized. Written by highly respected authorities, this book discusses the literature on all aspects of the war.

Dennis Showalter's opening chapter covers the controversial issue of the war's origins—a complex subject that has been much debated by historians. Ensuing chapters consider the literature on each of the participating countries. The broader subjects of the war at sea and the war in the air are also covered. Daniel Beaver's final chapter discusses the mobilization of industry and the new military technology. This book is an excellent starting point for anyone seeking guidance to the immense, and often daunting, body of World War I literature.

### From reader reviews:

#### **Peter Pitts:**

What do you think of book? It is just for students since they are still students or the item for all people in the world, what best subject for that? Only you can be answered for that issue above. Every person has several personality and hobby for each and every other. Don't to be pushed someone or something that they don't desire do that. You must know how great and also important the book Researching World War I: A Handbook. All type of book is it possible to see on many methods. You can look for the internet resources or other social media.

#### **Carolyn Foley:**

As people who live in typically the modest era should be revise about what going on or info even knowledge to make all of them keep up with the era that is certainly always change and move forward. Some of you maybe will certainly update themselves by looking at books. It is a good choice for you but the problems coming to you actually is you don't know what one you should start with. This Researching World War I: A Handbook is our recommendation to help you keep up with the world. Why, because this book serves what you want and want in this era.

#### **Michael Mitchell:**

Nowadays reading books be than want or need but also become a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge even the information inside the book which improve your knowledge and information. The data you get based on what kind of guide you read, if you want have more knowledge just go with education and learning books but if you want really feel happy read one using theme for entertaining like comic or novel. The actual Researching World War I: A Handbook is kind of book which is giving the reader capricious experience.

#### **Samuel Potter:**

Some people said that they feel bored when they reading a publication. They are directly felt it when they get a half elements of the book. You can choose the particular book Researching World War I: A Handbook to make your reading is interesting. Your own personal skill of reading ability is developing when you like reading. Try to choose basic book to make you enjoy to read it and mingle the idea about book and reading especially. It is to be very first opinion for you to like to open a book and learn it. Beside that the guide Researching World War I: A Handbook can to be your friend when you're feel alone and confuse in doing what must you're doing of these time.
