Doris Lessing

The Cleft: A Novel Doris Lessing

From Doris Lessing, "one of the most important writers of the past hundred years" (*Times of London*), comes a brilliant, darkly provocative alternative history of humankind's beginnings.

In the last years of his life, a Roman senator embarks on one final epic endeavor, a retelling of the history of human creation. The story he relates is the little-known saga of the Clefts, an ancient community of women with no knowledge of nor need for men. Childbirth was controlled through the cycles of the moon, and only female offspring were born—until the unanticipated event that jeopardized the harmony of their close-knit society: the strange, unheralded birth of a *boy*.
