Blood: The Stuff of Life (CBC Massey Lecture) Lawrence Hill

In *Blood*, bestselling author Lawrence Hill offers a provocative examination of the scientific and social history of blood, and on the ways that it unites and divides us today.

Blood runs red through every person's arteries, and fulfills the same functions in every human being. However, as much as the study and use of blood has helped advance our understanding of human biology, its cultural and social representations have divided us perennially. Blood pulses through religions, literature, and the visual arts, and every time it pools or spills, we learn a little more about what brings human beings together and what divides them.

This book is a fascinating historical and contemporary interpretation of blood, as a bold and enduring determinant of identity, race, culture, citizenship, belonging, privilege, deprivation, athletic superiority, and nationhood.
