**Elements of Argument: A Text and Reader, Ninth Edition** Annette T. Rottenberg, Donna Haisty Winchell

*Elements of Argument* was the first text based on the accessible Toulmin model — the model of argument that fits best with the methods and goals of college composition. It combines a thorough argument text on critical thinking, reading, writing, and research with an extensive reader on both current and timeless controversial issues. *Elements of Argument* presents everything students need to analyze, research, and write arguments.

The clearest writing and research coverage of any argument textbook has been re-invigorated to make it even more accessible. And it now has an array of provocative new topics — all to help students stake their claim in argument.
