Raj: The Making and Unmaking of British India

Lawrence James

Raj: The Making and Unmaking of British India Lawrence James

In less than one hundred years, the British made themselves the masters of India. They ruled for another hundred, leaving behind the independent nations of India and Pakistan when they finally withdrew in 1947. Both nations would owe much to the British Raj: under its rule, Indians learned to see themselves as Indians; its benefits included railways, roads, canals, schools, universities, hospitals, universal language and common law.

None of this, however, was planned. After a series of emergencies in the eighteenth century transformed a business partnership—the East India Company—into the most formidable war machine in Asia, conquest gathered its own momentum. Fortunes grew, but, alongside them, Britons grew troubled by the despotism that had been created in their name. The result was the formation of a government that balanced firmness with benevolence, and had as its goal the advancement of India.

But the Raj, outwardly so monolithic and magnificent, always rested precariously on the goodwill of Indians. In this remarkable exploration of British rule in India, Lawrence James chronicles the astonishing heroism that created it, the mixture of compromise and firmness that characterized it, and the twists and turns of the independence struggle that ended it.
