More than 50 clinical cases help you excel in your microbiology coursework and on the USMLE Step 1

The Case Files series is an award-winning learning system proven to improve exam scores. This series helps you to learn in the context of real patients instead of simply memorizing. *Case Files: Microbiology: Second Edition* presents 50+ clinical cases with open-ended questions which weave basic science concepts into the clinical scenario. Each case includes an extended discussion (including definitions and a pathophysiology discussion), key points, and 3-5 USMLE-style comprehension questions. The authors are experienced teachers from the University of Texas-Houston Medical School in Houston, Texas and Loma Linda University School of Medicine in Loma Linda, California.
