Introduction from the Author

I remember how difficult it was trying to decide in a span of two weeks where I wanted to spend my next four years. Nothing is particularly easy about that time in every high school student's life when they must either throw caution to the wind and follow their dreams, settle for something else, or follow the dreams of their parents. Luckily for me, I had no big shoes to fill or footsteps to follow, and I had already decided I would be going to school out of state. When I first made the decision to leave the confines of my small Ohio town and head for the booming metropolis that is Atlanta, my friends looked at me as if there was a squirrel on my shoulder. People could not understand why I would want to travel so far away, to leave the comfort and safety of home, just to go to college.

When I finally did make my decision, and began proudly telling anyone who would listen about the extraordinary and distinguished school I would be attending, I began to realize something—very few people knew what Emory University was. To this day people often reply, “So you're going to be a pilot?” referring to Embry-Riddle, a flight school in Florida. Some people from home still think that the school I attend is called Atlanta. Fortunately, I also found that the people who did know Emory were wearing suits, a fact which helped me realize what a truly great academic environment I was about to enter.

I hadn't even heard of Emory until I started the college application process, but once I began to research, I learned more and more about what a terrific school it was. It's not easy to describe Emory or my experiences here in a few short lines, especially because a lot of what Emory has given me has been beyond the simple realm of education. I have met students and teachers here that have changed, and continue to change, my life with every interaction we have. The world-class faculty and diverse student body make for a very colorful experience, and an interesting four years. Atlanta's rich cultural traditions, its fast-paced, exciting way of living, and its setting (nestled in the rolling, forest-covered hills of the South), make for a beautiful and exhilarating four years.

Can I recommend Emory to everyone? No, because no school will fit the needs of every student. But if you've purchased this book, you probably already know that Emory has piqued your interest, and you want to learn more. The best way to make the right decision is to call upon as many different sources of information as possible. So here you are, well on your way to understanding Emory, by taking a look at this unbiased guidebook. I hope that in your reading I can provide you with the insight and information important to showing what life is really like here at Emory University.
