Supporting Inclusive Education is a case study of a London primary school which includes a wide range of learners. It looks at: different teaching and learning styles; the effective use of learning support assistants; responding to challenging behaviour; using specialist strategies; how to research inclusive education; and what makes for a connective pedagogy. It is written for an audience of teacher-researchers in a jargon-free style.

Jenny Corbett is a leading expert in the field of inclusive education; her experience in supporting individual learners in mainstream education and the way she links theory to practice make this an essential read for all involved in the area.
