How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams

Charles J. Pellerin

Every successful organization needs high-performance teams to compete and succeed. Yet, technical people are often resistant to traditional "touchy-feely" teambuilding.

To improve communication, performance, and morale among NASA's technical teams, former NASA Astrophysicist Dr. Charlie Pellerin developed the teambuilding process described in "How NASA Builds Teams"—an approach that is proven, quantitative, and requires only a fraction of the time and resources of traditional training methods. This "4-D" process has boosted team performance in hundreds of NASA project teams, engineering teams, and management teams, including the people responsible for NASA's most complex systems — the Space Shuttle, space telescopes, robots on Mars, and the mission back to the moon. *How NASA Builds Teams* explains how the 4-D teambuilding process can be applied in any organization, and includes a fast, free on-line behavioral assessment to help your team and the individual members understand each other and measure the key driver of team performance, the social context.

Moreover, these simple, logical processes appeal strongly to technical teams who eschew "touchy-feely" training. Pellerin applies simple, elegant principles from his physics background to the art teambuilding, such as the use of a coordinate system to analyze the characteristics of team performance into actionable elements.

The author illustrates the teambuilding process with entertaining stories from his decade as NASA's Director for Astrophysics and subsequent 15 years of working closely with NASA and outside business teams. For example, he tells how the processes in the book enabled him to initiate the space mission to fix the Hubble Space Telescope's flawed mirror.

Free downloadable resources will help you:

- Identify your teammates' innate personalities
- Diagram your culture (And compare it to your customer's)
- Measure the coherency of your project's paradigm (Get this wrong and you will be fired!) and
- Learn to meet people's need to feel valued by you.

Further, you can download and use Pellerin's most powerful tool for influencing the outcome of any difficult situation: the Context Shifting Worksheet.

From reader reviews:

Carole Clark:

Inside other case, little people like to read book How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams. You can choose the best book if you appreciate reading a book. Providing we know about how is important the book How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams. You can add understanding and of course you can around the world by a book. Absolutely right, because from book you can know everything! From your country until finally foreign or abroad you will find yourself known. About simple factor until wonderful thing you may know that. In this era, we are able to open a book or perhaps searching by internet unit. It is called e-book. You can use it when you feel bored stiff to go to the library. Let's read.

Angel Jones:

The book untitled How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams is the e-book that recommended to you to learn. You can see the quality of the publication content that will be shown to you actually. The language that creator use to explained their ideas are easily to understand. The article writer was did a lot of exploration when write the book, to ensure the information that they share to you is absolutely accurate. You also will get the e-book of How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams from the publisher to make you considerably more enjoy free time.

Ariane Gray:

Spent a free time to be fun activity to complete! A lot of people spent their spare time with their family, or their friends. Usually they undertaking activity like watching television, planning to beach, or picnic within the park. They actually doing same task every week. Do you feel it? Will you something different to fill your personal free time/ holiday? Might be reading a book can be option to fill your no cost time/ holiday. The first thing you ask may be what kinds of guide that you should read. If you want to try out look for book, may be the publication untitled How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams can be good book to read. May be it may be best activity to you.

Paul Kennedy:

Typically the book How NASA Builds Teams: Mission Critical Soft Skills for Scientists, Engineers, and Project Teams has a lot of knowledge on it. So when you check out this book you can get a lot of profit. The book was written by the very famous author. The writer makes some research prior to write this book. This specific book very easy to read you can get the point easily after perusing this book.
