The Stuarts (A Royal History of England) Maurice Ashley

The Stuarts begins with James VI of Scotland, who inherited the crown through his mother, Margaret Tudor, and ends in 1714, with the reign of Queen Anne, whose thirteen children all tragically predeceased her, thus ending the Stuart line.

About the series **A Royal History of England**:

From the beginning of monarchical power in Norman times to the present queen, the British royal family has experienced many scandals, triumphs, and changes in public image, but few of their reigns can be described as uneventful. With contributions by specialist authors and contemporary illustrations of royal heraldry and coats of arms, Antonia Fraser has edited a definitive and entertaining history of one of the most powerful monarchies in the world.
